INTERCOLLEGIATE ACTIVITIES

It shall be the policy of the Board to support a program of intercollegiate activities as an integral part of the total school experience to the students of the District.

Through a program of intercollegiate activities, the Board offers students the opportunity to exercise and test their abilities in a context greater and more varied than that which can be offered by the college alone.

Administrative approval is necessary for implementing programs and shall require that all facilities utilized in such programs, whether or not the property for the college, properly safeguard both participants and spectators and are kept free from hazardous conditions.

The Board shall provide for participation by students and staff in co-curricular activities conducted within and outside the state, held in conjunction with the educational program of the District. The Board will assume expenses permitted by law subject to annual budget review. The fiscal management and general supervision of the intercollegiate activities shall be under the direction of the Chief Student Services Officer (CSSO).
