

RENOVATIONS

It shall be the policy of the Board of Trustees that renovations to existing buildings and other structures shall not be made without written approval of the Chancellor who will consult with the district's architect, when appropriate, before giving such approval.

In cases where the office of the State Architect has jurisdiction and must approve the proposed renovations, this office's approval shall precede that given by the Chancellor.

The Board of Trustees shall be informed of all renovations to buildings costing more than \$10,000.
