

Your 2019-20 Free Application for Federal Student Aid (FAFSA) was selected for review in a process called verification. The law says that before awarding Federal Student Aid, we may ask you to confirm the information you reported on your FAFSA. To verify that you provided correct information the financial aid administrator at your school will compare your FAFSA with the information on this worksheet and with any other required documents. If there are differences, your FAFSA information may need to be corrected. Your school may ask for additional information.

If you have questions about verification, contact your financial aid administrator as soon as possible so that your financial aid will not be delayed.

What you should do now:

- Collect you and your spouse's (if you are married) financial documents – 2017 IRS Tax Return Transcript (if you filed), IRS 2017 W-2 Forms (if you will not file).
- Complete and sign the worksheet—you and your spouse if applicable.
- Submit the completed worksheet, tax transcripts, and any other documents requested to the financial aid office.
- Your financial aid administrator will compare information on this worksheet and your tax documents with the information you submitted on your FAFSA application. You or your school may need to make corrections electronically.
