### Institution-Set Standard Data – Learning Area Reflection and Analysis

2018-19 Academic Year

Learning Area: \_\_\_\_\_

Date of Review: \_\_\_\_\_

WHC Coalinga has set a three year review cycle for Institution-Set Standards, and is currently in year two of this cycle, with new standards having been set during spring of the 2017-18 academic year.

Each learning area should discuss **its own learning area data** in relation to college wide data and the Institution-Set Standards and stretch goals, and complete this reflection and analysis report.

Questions to consider when reviewing and analyzing Institution-Set Standard data:

- Are existing standards and stretch goals too low or too high to be meaningful?
- How to the ISS and stretch goals relate to institutional priorities goals?
- Are the goals and standards relevant to student achievement within your learning area?

**Institution-Set Standards** are minimum levels of acceptable achievement and are used to monitor institutional performance.

**Stretch Goals** challenge institutional performance by serving as aspirational, long-term goals.

## Course Success

**Definition:** The number of students completing courses with a grade of C or better divided by course census enrollment.

Note: Success rate data presented here are based on Coalinga Campus, North District Center, Firebaugh, and Online Coalinga classes.

Current ISS: <b>63%</b>				
Current Stretch Goal: <b>75%</b>				
<b>Success Rates</b>	<b>2014-15</b>	<b>2015-16</b>	<b>2016-17</b>	<b>2017-18</b>

## Licensure Pass Rates

**Definition:** Examination pass rates in programs for which students must pass a licensure examination in order to work in their field of study.

This indicator is only required for programs that require a licensure examination to qualify for employment, and where there are at least 10 students who completed the program in the designated year. These programs are listed on the table below.

Program Name	Current ISS	Current Stretch Goal	2013	2014	2015	2016	2017**
Psychiatric Technician*	80%	90%	85%	79%	62%	72%	53%
