

RECOMMENDED TECHNOLOGY SPECIFICATIONS

Open Educational Resources (OER) classes provide students with access to digital resources at no cost. These resources include textbooks, online tutoring, and others. The zero cost textbooks can save students thousands of dollars. The following are general recommended items and specifications for online resources on campus. Please consult with your instructor for more specific guidelines to classroom required software and/or hardware you'd need to successfully complete the course.

Mobile Internet Option:

California Community 4G LTE Mobile Internet	https://shop.collegebuys.org/california-connects-4g-lte-mobile-internet-1999monthly-p8007.aspx	\$125 initial purchase + 19.99/month plus applicable taxes/fees
---	---	---

Computer Specifications:

Component	Recommendation
Operating System	Windows 10
Processor (CPU)	Intel 5th Generation i3, i5, i7 or greater (or AMD equivalent)
