Course Success and Course Completion Rates - Trend Over Time

● Course Success Rate ● Course Completion Rate

	2015-16	2016-17	2017-18	2018-19	2019-20
Course Completion Rate		89.5%	90.4%	91.1%	85.0%
Course Success Rate	84.1%	77.5%	78.9%	80.9%	93.1%
	73.2%				

Age | Campus Location | Class Meeting Time | Economically Disa... | Ethnicity | Gender | Instructional Method

The table below shows coursse success disaggreated by the selected subpopulation or course characateristic.
Red highlighting indicates a disproportionate impact (DI) based on the most recent five years of program data.
For Ethnicity, White Non-Hispanic students are used as the reference group for calculating disporportionat impact. For all other disaggregations, the overall success rate is used as the reference group. DI calculation takes subpopulation n-size into account,

Course Success Rates by Selected Disaggregation

DEMOGRAPHIC_TITLE	Duplicated Headcount	Course Success Rate
Ethnicity	**4,437**	**79.1%**
African-American	180	67.2%
American Indian/ Alaskan Native	27	74.1%
Asian	26	73.1%
Filipino	52	80.8%
Hispanic	3,336	79.9%
Two or More Races	119	69.7%
Unknown/Declined to State	75	68.0%
White Non-Hispanic	614	81.6%
Total	**4,437**	**79.1%**

Use the filter below to restrict the academic years being used to calculate disproportionate impact within the selected program.
